

How To Show More Rows Per Page

16 July 2020 | Productivity | Lez Yeoh

This tutorial shows how to extend your page to display more lists/ entries in a table view.

Blog Post Link:

Steps:

1. Login to <https://system.netsuite.com/>.
2. On the **Navigation bar**, click **Home** -> **Set Preferences**.
3. In the **General** tab, under **Optimizing NetSuite** -> **NUMBER OF ROWS IN LIST SEGMENTS** change the number of rows you want to show.
Limit: 500 rows.
4. Click **Save**.
